

BuddyPhones®

SafeAudio for Kids

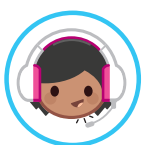

The BuddyPhones® StudyBuddy is our entry level kids headphones designed for remote home learning. The key feature is the detachable beam microphone which is essential for picking up the child's voice. As with all BuddyPhones®, safe audio comes as standard, capping maximum volume at 85dB. The audio cable includes a built-in answer & playback button and a BuddyJack™ splitter to share the audio with multiple listeners. Finally, decorative stickers and name tag labels sets the headphones apart.

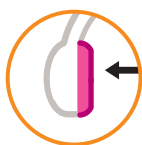

FEATURES
