

BuddyPhones®

SafeAudio for Kids

The BuddyPhones Guardian is a protective earmuff with passive noise-cancellation that protects kids from harmful loud noises. This lets them sit comfortably and safely in loud situations or helps them focus by eliminating distracting sounds.

With a SNR 25 rating, the Guardian reduces harmful noises by 26 decibels, offering a first line of defense against hearing damage. The ear cups provide a snug fit around the head and ears without being too tight. The thick hypoallergenic ear cushions gently form a good seal needed for sufficient noise protection, making them comfortable for hours of wear. The outer cups are designed with a metallic reflective material that give the product a high-end finish not commonly found on earmuffs for kids.

While perfect for noisy situations, the Guardian can also be used to help kids stay focused in school and when studying, shielding them from whispering classmates, buzzers and bells. This application is also great for kids with special learning needs or sensory issues.

Frequency(Hz)	125	250	500	1000	2000	4000	8000
